
THE JOURNAL OF LOGIC PROGRAMMING

Aims and Scope

The Journal of Logic Programming is an international journal whose aim is to publish original research papers, survey and review articles, tutorial expositions, and historical studies in the area of logic programming. All aspects will be covered including theory and foundations, implementation issues, applications involving novel ideas, and relationships with other programming methodologies. The *Journal of Logic Programming* is published in cooperation with the Association for Logic Programming.

Editor-in-Chief

M. BRUYNNOOGHE
Department of Computer Science
Katholieke Universiteit Leuven
Celestijnenlaan 200A
B-3001 Heverlee, Belgium
email:maurice@cs.kuleuven.ac.be

Founding Editor

J.A. ROBINSON
Syracuse University, Syracuse, New York

Editorial Advisors

K.R. APT
CWI, Amsterdam

K.L. CLARK
Imperial College

A. COLMEAUER
Université Aix-Marseille

K. FUCHI
Institute for New Generation
Computer Technology

K. FURUKAWA
Keio University

H. GALLAIRE
